14. (Canceled)
15. (Canceled)
16. (Original) A composition comprising a fraction derived from hops and a curcuminoid.
17. (Original) The composition of claim 16, wherein the fraction derived from hops is selected from isoalpha acids, reduced isoalpha acids, tetra-hydroisoalpha acids, hexa-hydroisoalpha acids, and beta acids.
18. (Canceled)
19. (Canceled)
20. (Canceled)
21. (Currently Amended) The composition of claim 16, wherein said fraction derived from hops comprises a compound selected from the group consisting of isohumulone, isocohumulone, isoadhumulone, dihydro-isohumulone, dihydro-isocohumulone, dihydro-isoadhumulone, tetrahydro-isohumulone, tetrahydro-isocohumulone, tetrahydro-isoadhumulone, hexahydro-isohumulone, hexahydro-isocohumulone, and hexahydro-isoadhumulone.
22. (Original) The composition of claim 16, wherein said curcuminoid is selected from curcumin, demethoxycurcumin, bisdemethoxycurcumin, cis-trans-curcumin and cyclocurcumin.
23. (Original) The composition of claim 16, wherein the fraction derived from hops and the curcuminoid are in a ratio of about 100:1 to about 1:10.
24. (Original) The composition of claim 23, wherein the ratio is about 3:2.

25. (Original) The composition of claim 24, wherein the fraction isolated from hops is reduced isoalpa acid and the curcuminoid is curcumin.
26. (Original) The composition of claim 16, wherein the composition comprises about 0.5 to 10000 mg of said fraction isolated or derived from hops.
27. (Original) The composition of claim 26, wherein the composition comprises about 50 to 7500 mg of the fraction isolated or derived from hops.
28. (Original) The composition of claim 16, wherein the composition comprises about 0.001 to 10 weight percent of the fraction isolated or derived from hops.
29. (Original) The composition of claim 28, wherein the composition comprises about 0.1 to 1 weight percent of the fraction isolated or derived from hops.
30. (Original) The composition of claim 16, wherein the composition further comprises a pharmaceutically acceptable carrier.
31. (Original) The composition of claim 16, wherein the composition is formulated for administration orally, topically, parenterally, or rectally.
32. (Currently Amended) A method of reducing inflammation, comprising administering a composition of any of claims 16-17 and 21 ~~1-31~~.
